LIBERALISM ART WORLD SHOPPING GUIDE

AN IDIOT WATCHISM STYLE

www.liberalismartworld.com/aiwa

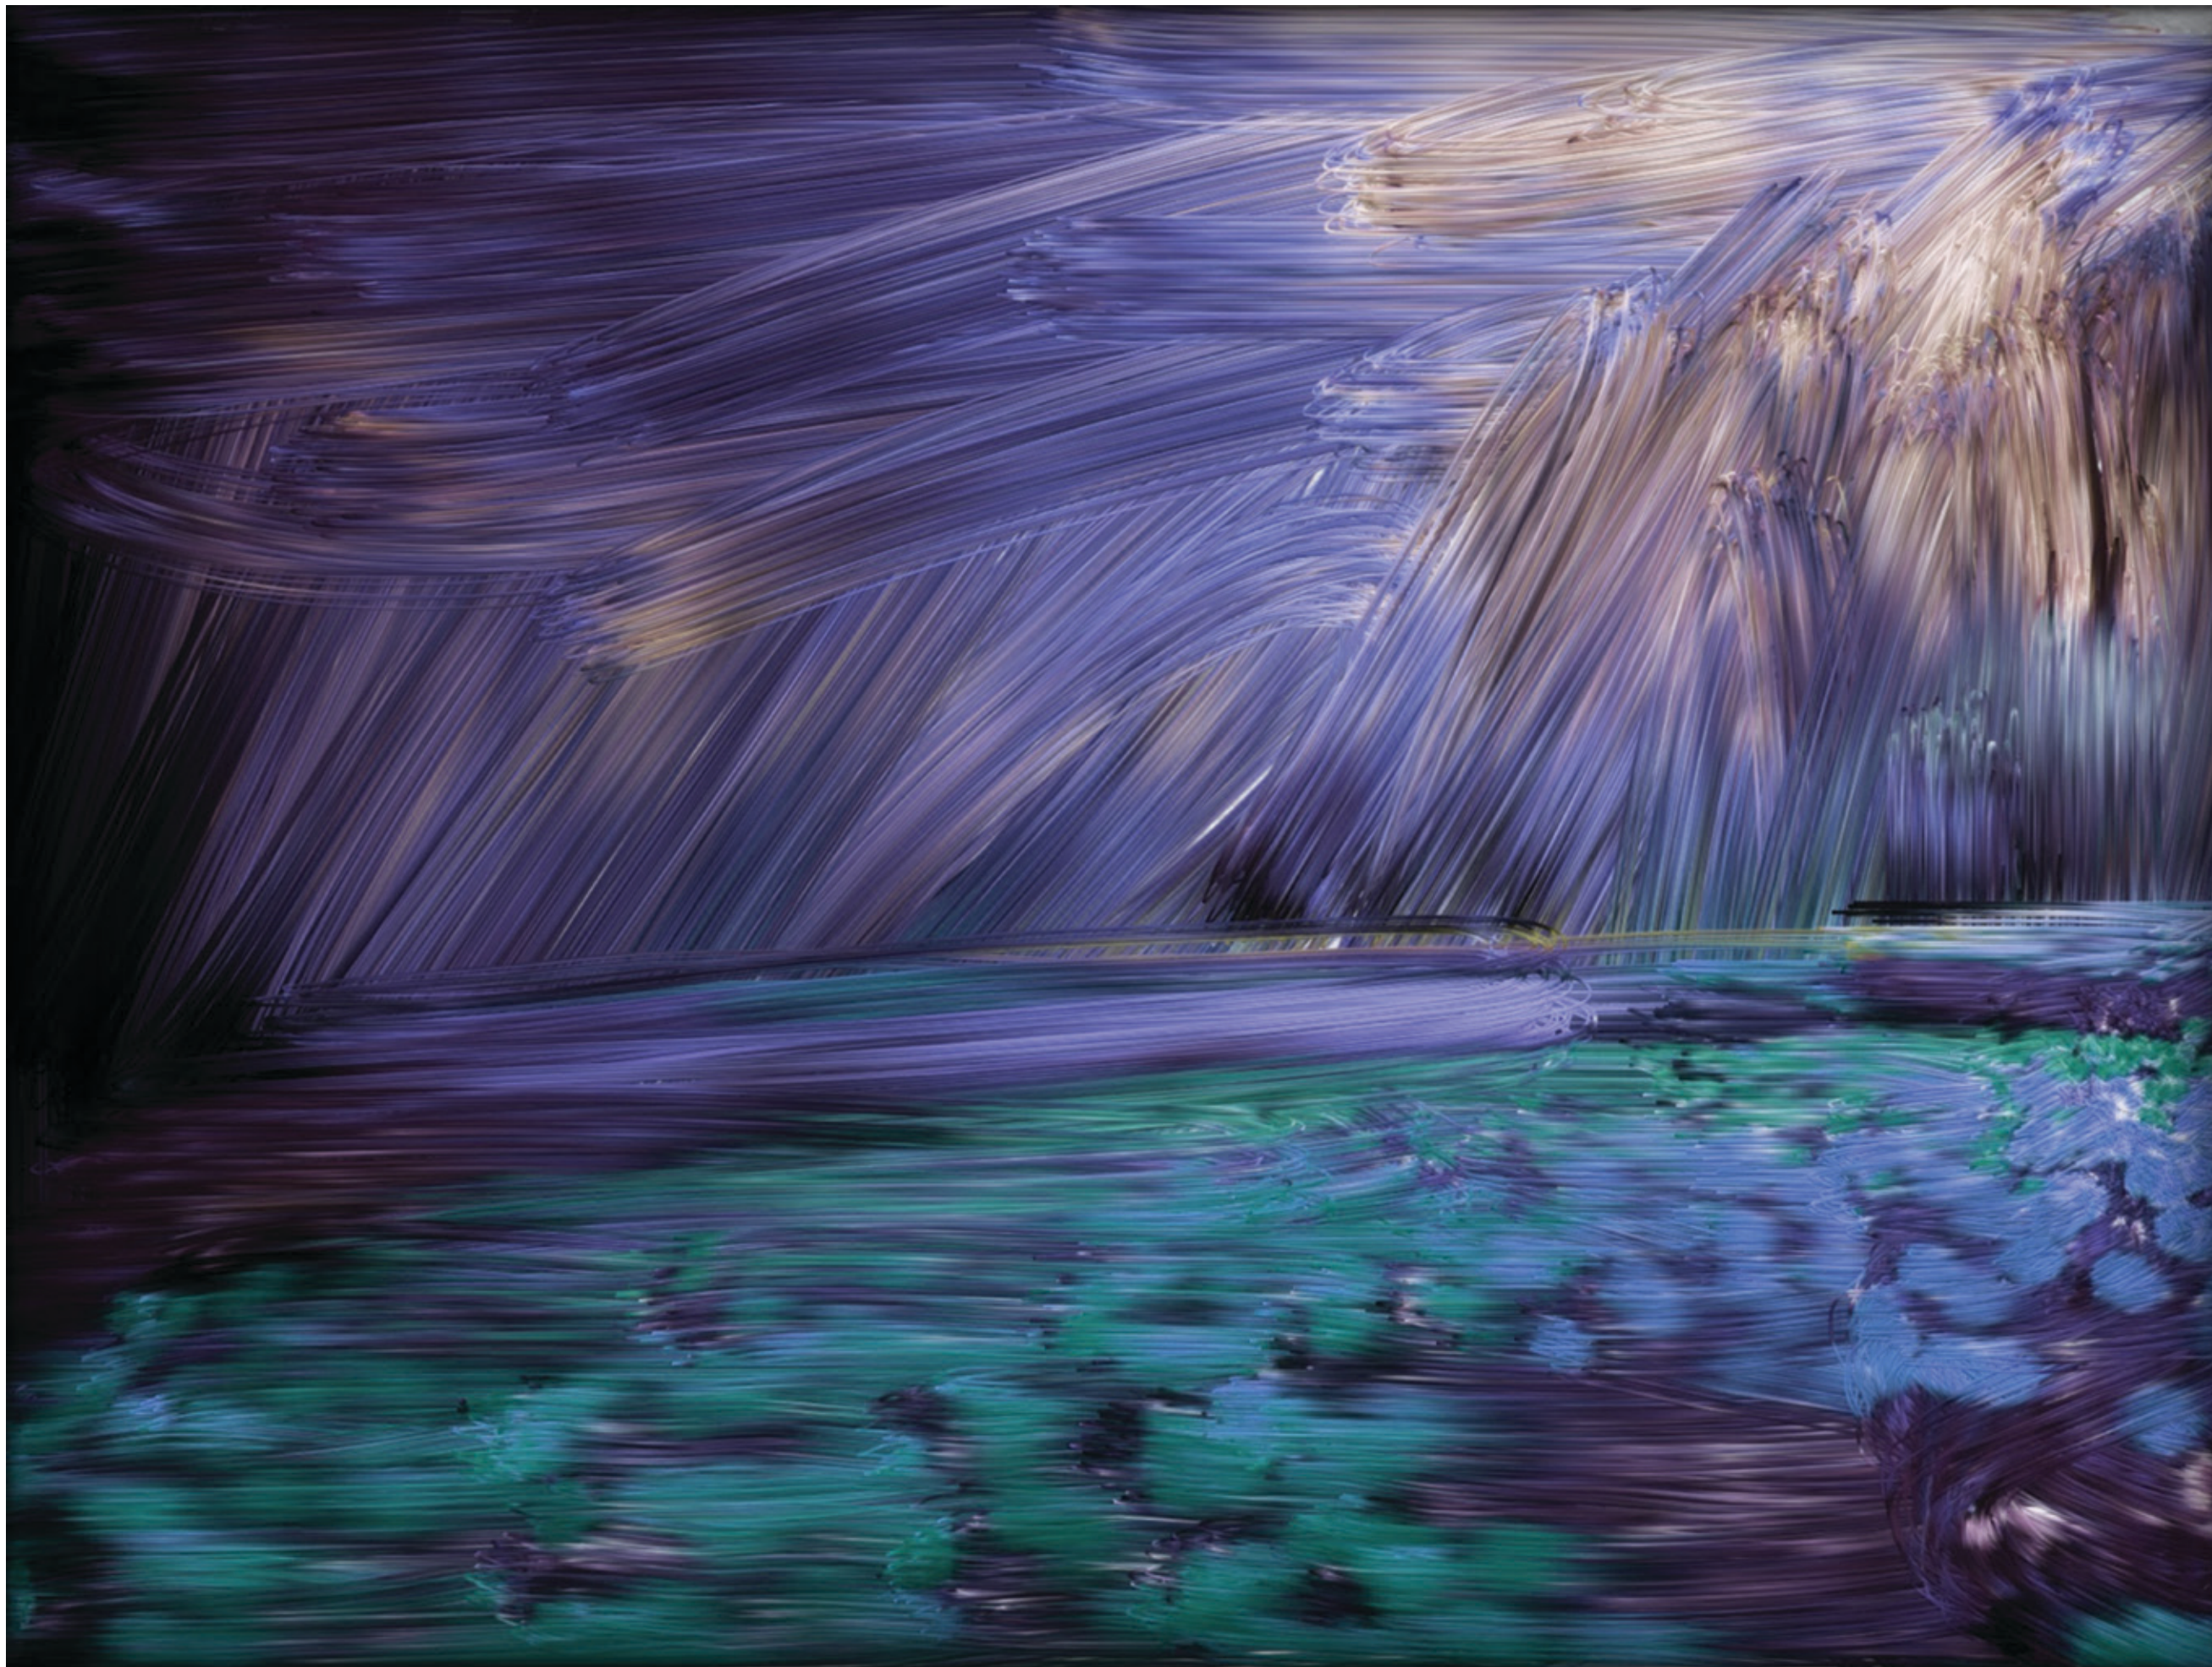

Welcome To My World! Buy my pictures! Because then you will be carrying the variable LIBERALISM style out into the world. And that's urgently needed. The reason? Unfortunately the market requires artists to have a recognisable style. Or in other words, their work must always be more or less the same. As you can see, I don't think much of that idea. Because inhibited creativity means inhibited art. Welcome To My World! Buy my pictures! And above all, visit me at www.liberalismartworld.com.

Works of art can be ordered from liberalismartworld.com

All the works of art shown have been created by the artist An Idiot and come from the collection of the MUSEUM OF LIBERALISM ART (MOLA) in Barcelona. All paintings, without exception, are hand-signed originals AND unique examples, which have been painted using the pioneering LIBERALIS technique invented by An Idiot. This means they have been painted on the painting support using fingers via a tablet and various transfer techniques. A turning point in then 40.000 years old history of painting.
